

FUSO – A Daimler Group Brand

GET READY FOR **THE FUSO GAS-POWERED TRUCK.**

COMING SPRING 2018.

Introducing the truck that redefines keeping your business moving – the all-new FUSO FE Series gas truck. With car-like maneuverability and exceptional visibility, our gas-powered trucks deliver high torque and power for effortless hauling, whether navigating city streets or suburban neighborhoods. Available in three weight classifications, the FE130, FE160, and the FE180, FUSO trucks offer the perfect balance of efficiency and versatility needed to get the job done.

MITSUBISHI FUSO TRUCK OF AMERICA, INC.

THE ALL-NEW FUSO GAS-POWERED TRUCK

POWERTRAIN: PSI-GMPT Vortec Series V8 6.0 L

Powering this brand-new FUSO model is a gasoline engine at twice the displacement of our diesel option – giving you more horsepower and more torque. Add to it the iconic Allison 1000 Series 6-speed automatic transmission for smooth, uninterrupted shifting and exceptional fuel efficiency. And as an option, the Allison has easily accessible provisions for the application of a broad range of after-market power take-offs (PTOs).

PAYLOAD CAPACITY: Up to 12,340 lbs

With its superior load-bearing capacity, the FUSO gas truck is capable of handling heavier jobs than its competitors.

FRAME: 7.08 in³; 56,565 psi; 400,410 lb-in

Built on a heritage of strength, quality, and reliability, the FUSO ladder-style frame is lighter than the competition, yet retains an impressive 56,565-psi yield strength.

FUEL TANK: 40 Gallons, in-rail

With a larger fuel tank capacity than its competitors, the FUSO gas-powered truck will save you time and extend your range between fill-ups.

ENGINEERING AND ASSEMBLY:

Freightliner Custom Chassis Corporation, Gaffney, SC

As part of Daimler, FUSO trucks are engineered and assembled with the expertise of North America's premier chassis manufacturer – Freightliner Custom Chassis Corporation. All FUSO FE Series gas trucks are designed and assembled using the highest ISO-certified production standards.
